²Ratings, current as of September 2023, are subject to change. Ratings refer to the claims-paying ability of the insurance company and do not reflect the safety or performance of any investment product. The rating agencies listed are independent of each other and use proprietary evaluation criteria and ratings scales.

³Ranking, current as of September 2023, is subject to change. The Comdex Ranking is a composite of all the ratings a company has received from the major rating agencies. It ranks insurers on a scale of 1 (lowest) to 100 in an effort to reduce confusion over ratings because each rating agency uses a different scale.
